

ALIGNMENT KICKBOARD | STREAMLINE KICKBOARD

1.05.042

Designed to go below the water surface to improve body position and decrease strain on low back and shoulders.

TECHNICAL / KICKBOARDS & BUOYS

1 HYDRODYNAMIC PROFILE
Promotes a streamlined body position from fingertips to toes

2 SUBMERSIBLE DESIGN
Creates an ideal body alignment when used just below the waterline

3 STABILIZING HAND STRAP
Allows control of the board without gripping, and places hands and arms in a proper streamline position

SHOULDER SAFE
Smaller design reduces pressure on shoulders

ALL FOUR SWIM STROKES
Great for standard kicking, one arm drills and side kicking in all four competitive strokes

EVA FOAM
Provides durability and prevents skin irritation

PRODUCT DESCRIPTION

Hydrodynamic design and stabilizing hand strap allows control over the board without gripping, creating perfect alignment from fingertips to toes. When paired with a snorkel, it encourages proper head alignment and improves overall technique. The EVA foam provides durability and prevents skin irritation.
