

BOOSTER | SHORT BLADE FLOATING FINS

#1.05.081

Designed to extend young swimmers' legs and prevent bicycle kicking.

TRAINING FINS / KIDS

1 SHORT BLADE
Feedback from the fins teaches swimmers how kicking generates forward movement through the water

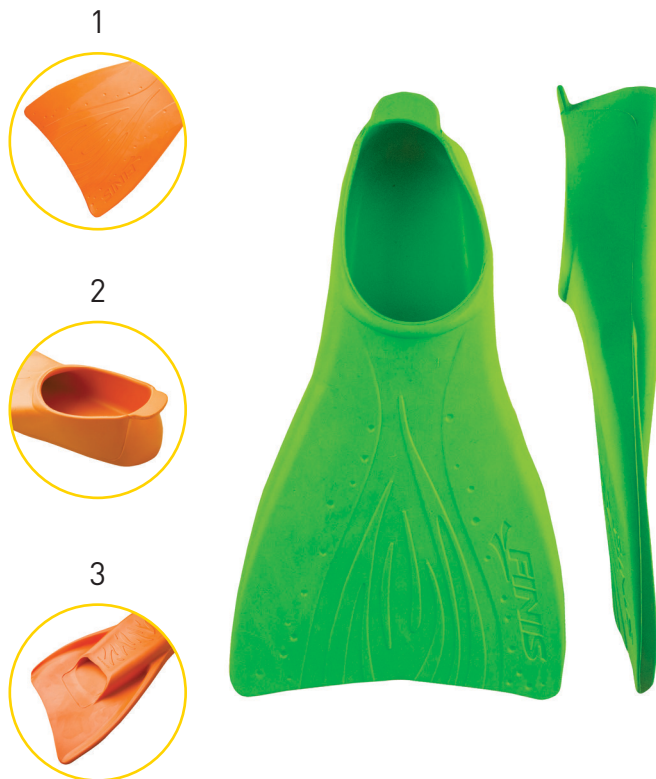

2 HEEL TAB
Adds durability and makes fins easy to put on and take off

3 OPEN-TOE DESIGN
Open-toe design on the fins' underside prevents chafing and ensures a comfortable fit

TRANSITION FIN
Promotes extension of legs to develop proper body position

NATURAL RUBBER
Improves floatation, and provides a soft, flexible fit

DEVELOP LEG STRENGTH
Added resistance in the water helps develop and strengthen leg muscles

PRODUCT DESCRIPTION

Booster swim fins are ideal for swimmers learning to swim. Feedback from the fins teaches swimmers how kicking generates forward movement through the water. Made of a natural rubber that floats, Booster fins help lift legs to the surface and teach proper body position.
