

FINIS TECH SUITS

FIT REFERENCE GUIDE

RIVAL 2.0

Designed for competitive athletes with a balance between compression, support, and flexibility to lock and lift the hips into perfect body alignment. Designed to fit a tall and lean body. For the experienced swimmer. Sizing recommendations: 1 or 2 sizes smaller than training suit, based on experience.

COLORS:

RIVAL

The ultimate combination of compression and flexibility. Two fabrics: the one-way stretch fabric increases compression, while the two-way stretch fabric allows optimal range of motion. Designed to fit a shorter and stockier body type. For the experienced swimmer. Sizing recommendations: 1 or 2 sizes smaller than training suit, based on experience.

COLORS:

VAPOR PRO

Our lightest tech suit, without compromising durability. Provides optimal balance between flexibility and compression. Unique double paneling on the back of the legs provides lift in the water. This is our lightest weight racing suit, designed with comfort as the top priority. Sizing recommendations: 1 or 2 sizes smaller than training suit, based on experience.

COLORS:

FUSE

Our most versatile tech suit with a universal fit, great for every level. An introductory-level racing suit that offers elite-level benefits and provides flexible compression without limiting range of motion. Extremely durable, built to last an entire season. Great for use by higher-level swimmers for race-pace practice sets. Any swimmer will be able to put these suits on successfully in half the time of any other tech suit. Sizing recommendations: 1 or 2 sizes smaller than training suit, based on experience.

COLORS:

FUSE JR

All the same benefits of the Fuse but with stitched seams, making the Fuse Jr. compliant with both FINA and USA Swimming regulations for swimmers under 12-years-old. We do not recommend sizing down because the compression of these suits is sufficient and often a new experience for younger swimmers. Sizing is age appropriate. We recommend ordering the size equal to the swimmer's age, or 1-2 sizes larger if big for their age.
